

Vickie Mrotek

Vickie Mrotek and her family have enjoyed membership at Saint Andrew for the past 16 years. During that time, Vickie has served on Fellowship Ministry for several years and has volunteered at SALC in many other areas, such as Sunday School, the Church Library and Lenten Soup and Sandwich meals.

Vickie earned her Bachelor of Arts degree in Communication at University of Wisconsin-Stevens Point in 1993, focusing her studies on broadcasting, theatre and politics.

Her professional career includes many highlights: she was employed for ten years as a News Anchor/Reporter at WSAW-TV (1992-2000, 2010-2011). She then worked for 17 years as an award-winning Biologics and Pharma Sales Professional for Pfizer, Inc. and Sanofi U.S. (2000-2010, 2011-2018). Vickie is currently a Field Reimbursement Manager for an industry-leading skin graft company, helping patients and clinics navigate complex insurance coverage and reimbursement needs.

In her free time, Vickie enjoys spending family time with her husband, Erik, and her daughters, Olivia (21, at University of Wisconsin-Milwaukee) and Elena (17, Senior at Wausau West High School). Her hobbies include gardening, kayaking, hiking, reading and caring for her pets.

Vickie looks forward to bringing more positive energy and optimism to SALC by serving on Church Council.

Mark Clark

Mark has been an active Saint Andrew member for thirty years and has enjoyed praising the Lord through singing in the choir, enriching the lives of children teaching Sunday school, mentoring confirmation students and helping to expand our youths' understanding of the world.

In October of 1994, Mark married Pam (Markowski) and they have one son Matthew. In the past, when asked to serve on the council, Mark's response was . . . "when Matthew is out of high school" . . . Well, that time has come! Matthew is 19 and attending college in Minneapolis.

Something you may not know about Mark is that he enjoys creative design of one-of-a-kind solutions; i.e. creating tools for his son's DJ business and the cross hiding the HVAC and lighting in the youth room. The youth room was a large project that he enjoyed helping to plan and design. He has also led and planned two mission trips to Kentucky for our high school youth to help with the Appalachia Service Project (ASP) during the summer. Mark has discovered a great satisfaction in being involved with the youth in our church family and being active in the youth and faith formation ministries.

Along with continual learning, Mark also enjoys walking, kayaking and sailing. He loves nature and especially water which came from growing up near Lake Michigan and sailing with his father. When he's not dreaming of buying a sailboat and sailing around the Caribbean, he works as a technical expert/consultant for Siemens Energy - Water Solutions, a.k.a. Zimpro.

There has not been a dull moment this year when it comes to creative gathering and creative use of technology to stay connected while staying safe and Mark was happy to help get Saint Andrew "live streamed" through Facebook. He is active with the communication ministry and also with the men's bible study on Wednesday mornings. He is grateful for the friendship with other men of faith and also appreciates having Pastor Justin's knowledge of the bible and the history of that time period.

Mark is looking forward to being a part of the council of Saint Andrew and helping to lead our church family into the next journey of faith together.

Jeanne Willems

I have a Bachelor's degree in Community Health Education. In the past I have worked as a grocery buyer for Associated Grocers of Iowa and a grocery sales rep for General Mills. In recent years, from 2002 until I retired in 2018, I worked in Human Resources for Intercity State Bank. I feel I have good writing and organizational skills and I am determined to learn how to work with a wide variety of people.

We were looking for a new church in 1997 and a good friend steered us to Saint Andrew. By the time we reached the stop lights after leaving the church for the first time, our decision had very easily been made. We love the atmosphere at Saint Andrew.

In the past I have served on Member Outreach, taught Sunday School, helped with building maintenance projects alongside Shannon, including wallpapering and painting, as well as general cleaning. I volunteer for Fellowship and have been the secretary for Social Ministry for a number of years. I have worked in the kitchen for Lenten Soup as well as for funeral lunches and help as needed with a variety of activities for my committee.

I am always energized to learn more about the operations of the church and other ministries. It helps to give me a better understanding of our goals, and the obstacles we need to overcome to reach our goals.

I have been married to Greg for....ever, or 42 years to be specific. We met in college. Our son Ted, and his wife, Jen and their children, three year old Merritt and 7 month old twins, Griffin and Everett, live in Wayzata, MN. Our daughter Maggie, her husband Jeff and their one year old daughter, Molly, live in Carmel, IN. My 91 year old parents still live in, and maintain, their own home in Valders, WI. I hope their longevity genes have been passed down to me. We enjoy spending time on the Minocqua chain during the summer months and I enjoy reading and knitting in my spare time.
